Treatment Area

Treatment Area

The Treatment Area is a 3800 sq. ft. area with three "Pod" areas (only one pictured) and a total of 15 large treatment rooms and a Hydro Therapy Room for full body and extremity whirlpools. Each pod area consists of 5 treatment rooms, 3 regular treatment rooms, one traction room and one mobilization room. The pods are designed so that each physical therapist will have all of his/her patients in the same area which allows for better care.

Instructions

To take a 360 degree view of the room, place the mouse on the picture until you see 4 arrows, left click and hold button down. Drag the mouse left, right, up or down to view virtually any part of the room. To zoom, right click on the photo and select "zoom in" or "zoom out" in the menu. Repeat this step until desired depth of field is acquired. To fully zoom out, right click and select "go home".
